Hi Thea,

Thank you for your interest in BONAP. Yes you have permission to use and modify the Soil-pH map indicated in your e-mail. Please cite as

Kartesz, J.T., The Biota of North America Program (BONAP). 2015. Taxonomic Data Center.
(<http://www.bonap.net/tdc>). Chapel Hill, N.C.

Thanks,
Misako

Dear Misako Nishino,

I am an assistant professor in the Department of Soil Science at the University of Wisconsin-Madison. My PhD student is writing a paper that is focused on soil pH, and the map at [bonap.org](http://www.bonap.org) (http://www.bonap.org/2008_Soil/pH20110321.png) is really excellent. Could we be allowed to use the WI portion of it (modified with locations of our agricultural research stations) in the supplementary information in a paper? If so, what would you prefer for proper attribution/citation?

Thank you for your consideration.

Sincerely,
Thea Whitman
